

James Ryan, Local Editor.  
Henry D. Ryan, Assistant.

We acknowledge the receipt of an  
contribution to a Grand Ball at Fond du Lac,  
in honor of the 22d.

Saw Logs are being run out to town  
now, in great quantities. They bring good  
prices and find ready sale.

Atty Genl Howe failed to appear  
to lecture before the College Societies.  
We did not learn the cause.

We welcome to our columns again  
the pleasant talks of our friend "Argus."  
May he come often.

Dirty Indians have brought clean  
big Sturgeon in town this week and ask  
whopping prices. Heap Shoonieau, Heap  
Skiteawaboot! Sometimes.

Collins Gillett, the Treasurer of  
Grand Chute informs us that in spite of the  
high taxes in his town, he has collected  
about as much as was received last year.

Cedar Posts would make a first rate  
cash paying operation here. Why does  
not some of our people go into the business  
of getting them out!

Wells hereabouts are becoming alarm-  
ingly low. Unless we have a thaw  
soon we will be compelled to draw water  
from the river or melt snow.

Jerome Watrous left on Wednes-  
day morning last to return to his Co. in the  
6th Wis., Regt. on the Potomac. He will do  
his duty, we'll warrant, under whatever  
circumstances he may be placed in.

Capt. Perry, at New London is anx-  
ious to secure a few Volunteers to assist in  
filling up that Company. It numbers some  
of the best material in New London. It  
has our best wishes for a speedy filling up.

Sau Ryan, Jr., the founder of the  
Crescent, is now filling an important position  
in Col. Darstow's Cavalry Regt at  
Janesville. He will make a good soldier,  
if we do say it.

Cranberries are selling lower now  
than we have known them to be for years.  
But sugar is sugar now-a-days, and cran-  
berries take to sugar, as our sleigh riders do  
to the girls.

Enterprise truly. Some six were  
married at Little Chute on Monday last; a  
number more will be married on Tuesday  
next! and still numbers additional are in a  
fair way to go and do likewise. This is  
really encouraging. Little Chute is some!

The whole machinery of the  
Woolen Factory is now in successful op-  
eration. We are told it works finely, but  
we mean to see this some day for our-  
selves, if Mr. Hutchinson has no serious  
objection to allowing us inside to take notes.

New Music.—We are in receipt  
of a splendid piece of Music, entitled "Our  
General's Grand March," with their por-  
trails attached, from Horace Waters, the  
well known Music Publisher and Piano  
Dealer, 481 Broadway, New York.

It is now getting to be so late in  
the season that we can't expect the sleigh-  
ing to remain much longer, and those who  
intend or have promised to haul us wood,  
had better be stirring their boots or they  
will be up stump, sure.

We were slightly mistaken last  
week in stating that city taxes could be  
paid to the city treasurer until the 27th.  
The 25th is decidedly and positively the  
last day of grace. After that date, Mr.  
Werner will receive taxes as Co. Treas-  
urer, for a short time before they will be  
advertised.

Capt. M. Moyer, of the United  
States Army, will be in town on Tuesday  
next, for the purpose of inspecting and  
mustered into the U. S. Service, all those  
who may be desirous to enter the Regular  
Army. Sergeant Ross at the Crescent  
Hotel, will give all further information to  
applicants, who are desirous to report them-  
selves to him immediately.

We had a brief call the other day,  
from our Co. 'Sup't, Mr. Gerrits. He is  
hard at work, arranging his plans for a  
general system of schools throughout the  
Co. He has, we believe, visited every  
School district in the Co., and informs us  
that a more heterogeneous system of school  
teaching as practised through the Co., is  
impossible to imagine. We trust he may  
prove equal to the task of reducing the  
chaos to order.

The many readers of the Crescent  
have of course noticed that we have recent-  
ly added interest to our local columns by  
securing correspondence of a local charac-  
ter from different portions of the County.  
We have done our best to publish a County  
Paper, that reflects its every interest, not  
a mere thing issued weekly to secure a  
share of County or State pay, regardless of  
the interests of its locality, or the County  
in which it is situated. Now we have suc-  
ceeded in advancing the interests of Outa-  
gami, and the city of Appleton, we leave  
to others to determine.

To the correspondents who have already  
appeared in our columns we are making  
arrangements to have others favor us with  
local items in their different towns, which  
will give us a broader scope in our local  
news. The County paper is valuable only  
as it faithfully represents its local inter-  
ests. Now we are doing our part; we ask  
our friends to do theirs by assisting us to a  
larger circulation and more extended field  
of County readers. Show the paper to  
your neighbors and induce them to take it  
and pay for it.

The Crescent has grown up with the Co.  
and has always been closely identified with  
its dearest interests. Let us have a gen-  
erous support.

These expected new goods at Mr.  
Payzant's Store, have just arrived. Ladies  
and all others in want of good goods in his  
line, will find it to their advantage to call  
and make Theodore pull down and show  
them the new arrivals. Call and see for  
yourselves.

Mr. Z. C. Fairbanks, Nurseryman,  
has been in town for the last ten days or  
more, selling trees, shrubbery, bulbs, &c.  
He may be relied on to do just what he  
promises, as we have reason to know. The  
firm, of which he is a member, makes Mil-  
waukee their headquarters. They furnish-  
ed a quantity of trees to this city and coun-  
ty last fall, which as far as we can learn,  
gave entire satisfaction. We recommend  
them to the consideration of those wishing  
to purchase.

Prospective Business.  
More prospective business on our Water  
Power. The value of Appleton, as a Manu-  
facturing point, as well as its other ac-  
knowledgeed advantages, is becoming more  
and more realized by strangers and capital-  
ists who are looking out for a good loca-  
tion. The agitation of an opening to us by  
the Lake Superior people, and their de-  
termined energy to secure their pressing  
necessities and the fact clearly apparent to  
the unprejudiced, that Appleton must be a  
grand central point, is daily giving us an  
impetus that is unmistakable, and if cor-  
rectly managed must make Appleton one  
of the first class inland towns in the State.

All that is necessary to do to secure ad-  
ditional heavy manufacturing establishments  
on our Water Power is for our proprietors  
and citizens to evince a disposition to deal  
liberally with applicants. But from two  
conversations we have lately had with  
some of our heaviest property holders  
either on the water powers or real estate  
interests, we are satisfied that more liberal  
terms cannot be made anywhere else in the  
State, nor can equal advantages be shown  
elsewhere. Our Manufacturing facilities  
are the most extensive, and as convenient  
as is possible to be imagined. Our timber  
is easy of access, transportation facilities  
ample, and then our town is one of the  
handsomest in the State, with a substan-  
tial population as could be wished for,  
and educational inducements unequalled in  
the State.

All these elements combine to give a  
telling character to any place. We are  
led to these reflections from the fact of the  
growing interest in this direction mani-  
fested by parties coming about for a point  
to invest their capital to the best advantage.

Within the last few weeks a gentleman  
of heavy capital has been in town, examin-  
ing our Water Power and looking over our  
place, with a view of establishing a Tannery  
on a magnificent scale, and having a  
large establishment in town to manufac-  
ture the leather into boots and shoes for  
market. Mr. West has made the gentle-  
man the most liberal offers and is now en-  
gaged in negotiating with him on the sub-  
ject. He has selected a site a short dis-  
tance above the Hub & Spoke Factory, and  
if he goes into the business at all it will be  
on an extensive scale. We trust that Mr.  
West will be successful in securing this  
valuable establishment on his Water Power.

The gentleman is so well pleased with  
the location and the town that he ex-  
pressed himself perfectly satisfied and if he  
decides to enter upon this business anywhere,  
it will be here.

Other gentlemen, commanding extensive  
means, have been looking through our  
place, and in company with Mr. West, ex-  
amined the Island Water Power, with a  
view to the probable construction of build-  
ings and machinery for the manufacture of  
Wrought Iron from Lake Superior Ore.  
They also have expressed their entire sat-  
isfaction with the inducements offered them  
by Mr. West, and they are now ascertain-  
ing the cost of procuring the ore by the  
way of Green Bay, and if satisfactory they  
will most likely erect five or six large fur-  
naces and go into the business on a grand  
scale.

The Water Power of Appleton must at-  
tract capital sooner or later, and these  
signs warrant us in expressing our belief  
that busy times will soon be witnessed on  
our great Water Power interest. Let us  
encourage these enterprises to the utmost  
of our power.

For the Crescent.

Things About Home.  
The snow is as deep as ever, such an op-  
portunity for winter work is not often at-  
forded. It is the harvest season of the  
woodland region—worth more than the  
products of last summer. How the bolts  
and mill-logs do loom up! And see, those  
huge wood piles!

It is evident that the timber of this re-  
gion is to be turned into gold. It clears  
up the land at the same time. Appleton  
is bound for a growing future, if the Stars  
and Stripes shall be victorious. And the  
signs are hopeful. We are still to live as  
a nation. God speed the right!

We heard the other day, at Menasha,  
that Appleton was becoming famous for  
cheap trade in the Store line. We were  
able to say, it is verily so. This is a need-  
ful reform. There is no use in denying it,  
much of our trade has gone elsewhere.  
Our Merchants were hardly up with the  
times, especially in cash trade. It is not so  
now. The neighboring towns may safely  
give us a call. You can buy as cheap in  
Appleton as anywhere.

Rev. H. A. McArthur was installed  
Pastor of the Second Presbyterian Church  
and Society in Neenah, on Tuesday eve of  
this week. The services were very inter-  
esting. Sermon by Rev. F. B. Due of  
this City. It is a pity that all the Churches  
in this vicinity could not have heard the  
charge to the people, by Rev. Mr. Marble  
of Oshkosh. If they could abuse their  
minister after that, they must be totally  
deprived up to the hub. He said it was  
downright dishonesty, and shameful abuse,  
for a society to stipulate so much salary, to

be paid quarterly, and then pay little or no  
regard to their obligations—leaving the  
minister to suffer in his feelings and sacri-  
fice his good name because of their negli-  
gence—to call it by no worse name. Many  
a poor clerical, whose wallet has not seen  
a sixpence for three months, would say  
amen to that. Either have no preacher at  
all, or else do by him as you agree. This  
looseness is the curse of our Western  
Churches.

There is an unusual religious awaken-  
ing in our City at this time. Meetings  
have been fully attended nearly every eve-  
ning for the past two weeks. The exer-  
cises have been very impressive, and some  
it is believed, have begun a new life. The  
weather has been exceedingly cold, but  
hearts have been growing warmer. Phys-  
ical evil has been rejoiced by moral bless-  
ings. It is hoped that this work will con-  
tinue till a thorough reformation is wrought  
in our community. We will not give much  
for a conversion that does not make one  
better in his ordinary relations—a better  
man—a better woman—a better child—  
a better husband, wife, and citizen—a truer  
lover of his country. This is the kind of  
Christians that we need. We trust that  
this work is making some such, and yet  
there is room. We will speak of some  
other things soon. The last week Cres-  
cent was fresh and spicy with local inter-  
est.

ARGUS.

PREPARATIONS FOR RIVER BUSINESS.  
The indications now seem to be that busi-  
ness on the river will open very brisk this  
season. Mr. Buck's splendid river steam-  
ers will be on hand as soon as the ice  
moves, and we presume that the same ef-  
ficient and popular propellers as last year  
will keep up the communication by Lake  
with Buffalo, and that more will be put on  
if business will warrant. This line done a  
splendid business last season, notwithstand-  
ing the disastrous winter which the agency  
had to contend, the construction of  
boats, &c., which will not be obstacles in  
the way this season. Last year the two  
boats of the river line, the Fountain City  
and Bay City, capable of carrying more  
than a hundred tons of freight each way  
every day, were not completed until late in  
the season. This year they will be all  
ready to fire up as soon as the improve-  
ments open, and the freight is waiting for  
them. Mr. E. A. Buck had in store Feb.  
13th, awaiting the opening of navigation,  
40,000 bushels of Wheat and 8,000 bbls.  
of Flour. This, with the amount which  
will be continually coming in, will insure  
plenty of business.

We do not know yet how many boats  
will be engaged in the river trade, but are  
inclined to think that, despite the Railroad  
opposition, there will be no craft idle that  
can carry or tow grain or flour. Last sea-  
son we had one boat from the upper Fox,  
the tug Portage City, and she was not on  
the route very early. We hope to see other  
boats from Portage this season.

Last year the exports of Flour from  
Green Bay were greater than from any  
other port in the State, with the ex-  
ception of Milwaukee, while this was the  
fourth or fifth grain shipping port in the  
State. The time is near when the bread  
of millions will flow to them through the  
waters of Green Bay.—G. B. Adv.

# The Japanese Presents.

The Japanese presents just sent to the President of the United States from the Tycoon of Japan, are the finest ever seen in this country.

A lacquered box containing a letter thanking the President for the reception given his ambassadors—in a most courtly phrase and characters as stateliness as the usually found upon the sides of a tea box wrapped in the yellowest of yellow silk with plenty of gilt.

A sword of exquisite steel, with the handle bedded with large pearls and mounted in the finest gold.

Blocks of crystal from the sacred Fujiama Mountain, of diamond clearness.

Vases of antique bronze, exquisitely sculptured in relief, with turquoises and stones of untold value.

A punch bowl fit for a Cyclops to "wet his whistle" in, so large that the President's two sons curled up in it, and the cover was put on.

Candlesticks some four feet high, gold mounted, with vases of every variety of pattern and shape.

An entire suit of armor quite worthy of the middle ages.

A whole dinner set, with hundreds of pieces of Japanese crape, silk and brocade, form part of these royal presents.

**SOLDIERS' BOUNTY MONEY.**—By an act of Congress on July 22, 1861, \$100 was authorized to be paid to the widow of each officer or soldier, in addition to the pension hitherto granted, who was killed or died in service of the United States. Also, by another section of the same act, a similar sum of \$100 was directed to be given to any officer or soldier who should have served out his two years' time of enlistment, or if sooner discharged by the close of the war. Congress, in the hurry of legislation, made no appropriation for these objects. Over \$70,000,000 will be required. Demands are now constantly made upon the government for this bounty.

Thomas Jefferson was the author of the Kentucky resolutions of '98, endorsed by the national democracy. James Madison afterwards said that Jefferson "never asserted a right in a single State to arrest the execution of an act of Congress," either in the Kentucky resolutions or elsewhere. The democratic resolutions of '98 cannot, therefore, be similar to those of Wisconsin. The first are right—the last should be expunged.—*News.*

A poor Irish cripple sat begging at a bridge, when a young married couple went by. They didn't heed the beggar's piteous, so just as they passed him he exclaimed, "May the blessing of the Lord, which brings love, and joy, and wealth, and a fine family, follow you all the days of your life," a pause; the couple passed heedlessly, and the beggar with a fine touch, of caustic humor, added, "and never overtake you."

**\$2,000 REWARD.**

Whereas the practice of Creditors having become obsolete with Eastern Justice, it is hereby ordered that the Retailer, for direct reasons, to follow their example.

**Self Preservation.**

The first law of nature requires it in times like the present, and I predict that one-half the Merchants who continue to do business in the old way will be laid upon the shelf within one year from date.

Therefore, be it enacted, that from and after the first day of January, 1892, the

**Crediting Practice**

will be superseded by the subscriber, and when referred from this insurance it will be a saving of 10 per cent. to the purchaser and also to the vendor for the loss of interest and bad debts will amount to more than that sum. If every man will buy only what he can pay for, he may be compelled to practice crediting, which may in the end save him from bankruptcy and others from loss on his account.

The only independent who can pay for what he buys, or deny himself of it, whether a necessary or luxury.

January. Foreign and domestic goods have each taken an exorbitant advance, with the prospect of a still further advance, and it becomes every family to practice economy at least in the purchase of luxuries.

John Hall, New York, has been ordered to pay out of his pocket \$100,000,000, and to be paid in full by the Government, and for these luxuries we should contrive to use a substitute.

I have fixed upon the beginning of the New Year to suspend all credit and shall also require all persons to settle up all balances in Cash, or some other way that will be satisfactory.

It is too good to pay cash, therefore I give notice through the present, that all persons interested may take notice and govern themselves accordingly. My ledger is full and my cash box is empty.

**All Kinds of Goods**

formerly kept, I have now on hand, for Cash Customers, and then only. The above reward will be given to my creditors as soon as received on sales and accounts. Appleton, Dec. 25, 1891.
